RENO, WASHOE COUNTY, NEVADA, MONDAY, FEBRUARY 20, 1882.

NO. 120.

## COAST CLIPPINGS.

Copper mines near Auburn are soon to be opened on a large scale.

Igo mines, Shasta county, are unusually prosperous.

Heavy snows and cold weather prevail in Northern Arizona.

The Gallatin ice gorge, M. T., is more than a mile in width.

There are 100 people at Oro, A. T., the gold mining camp on the San Francisco river.

Freight shipments to Baker City, Oregon, during 1881, aggregated \$400,534 pounds.

The A. T. & S. F. R. R. has decided to locate a hospital at Raton, N. M., for employees of the road.

There are only six Americans in the Territorial Legislature of New Mexico—three in each House.

Louisa Wagner, of You Bet, Nevada county, Cal., aged three years was scalded to death last Monday.

Over a dozen houses are being built in Paradise valley, San Diego county, costing from two to four thousand dollars apiece.

The heavy snow in the mountains has been driving the game to lower altitudes. Deer and bears are leaving their tracks round the streets of Etna, California.

More improvements are in progress on the Nevada Colony, Fresno county, than at any time since its inception. The land is being rapidly sold off in large tracts to gentlemen of means and enterprise.

As now located, the lines of the Northern Pacific, and Utah and Northern Railroads, between Bedford and Heleida, M. T., run parallel with each other, and at few places are not more than 500 feet apart.

From the foothills and valleys of Nevada county a heavy fall of snow is reported. Where snow has heretofore melted as soon as it fell, from eight to twelve inches are reported. At Smartsville there is one foot, and at Penn valley nine inches.

On the 20th ultimo the mercury marked 29 degrees below zero at Parker's station, on Burnt river, Oregon. On the same day the record was 4 degrees below zero at Canyon City. This is the lowest temperature experienced there for several seasons.

Stevens is the largest county in Washington Territory, comprising 13,260 square miles; Spokane next, 10,000 square miles; Yakima third, 8,900 square miles, and Whitman fourth, 5,000 square miles. The smallest is Wahkiakum, 150 square miles.

Charles F. Mackinn, the architect sent to Portland by Mr. Villard, with plans for the great depot, will return by the Columbia Sunday night. He will report that excellent stone can be had at several quarries in Oregon, and has estimates from several local experts regarding the cost.

A Chinaman was stoned to death at Townsend Flat, Shasta county, Cal., the other day, and his companions said the deed was committed by a white man. He was able to prove his innocence, however, when the Celestials said it was another white man. It is the general belief that the Chinamen themselves are guilty of the act.

### TRUTH ATTESTED.

Some Important Statements of Well-Known People Wholly Verified.

In order that the public may fully realize the genuineness of the statements, as well as the power and value of the article of which they speak, we publish herewith the fac-simile signatures of parties whose sincerity is beyond question. The truth of these testimonials is absolute, and can be proved by any one who has used the medicine.

Moline, Ill., July 14, 1881.  
H. H. Warner & Co., Rochester, N. Y.  
GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure, has been used by both my wife and myself. She used it in general practice, as a cathartic and liver regulator; took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other. Until I used your Safe Kidney and Liver Cure. With both mine in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

S. M. Whittier  
Mayor of Moline,  
Chicago, May 30, 1881

H. H. Warner & Co., Rochester, N. Y.  
MY DEAR SIR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and a well man today.

C. A. Harris  
"Carl Pfeiffer"

Thousands of equally strong endorsements—many of them in cases where hope was abandoned—have been voluntarily given, showing the remarkable power of Warner's Safe Kidney and Liver Cure, in all diseases of the kidneys, liver or urinary organs. If an one who reads this can say, "physician, I remember the great danger of delay,"

#### GREAT SOUTH AMERICAN PA ACEA.

UNCLE BEN JO was born in Boston in 1830. Being a botanist, he collected many wonderful cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very disagreeable and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part looks over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, hairy-looking ball, which sticks and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Norn." It is a wonderful cure of kidney and liver diseases, also, dropsy, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by OSBORN & SHORR, Reno, Nev.

## EDITORIAL NOTES

The *Index* seems to take a very small view of an important question. It tries to hold, as a matter between the *Index* and the *Gazette*, a question which is agitating all the nations of the earth. Without in any way defending any railroad or expressing anyone's views but our own, we said recently that the politicians had made an utter failure in their attempts to regulate railroad charges. We did not say that there was no injustice nor extortion, but that some of the politicians were trying to turn the sufferings of the people to their own advantage. We have yet to meet with a contradiction of this statement. It was so true that it aggravated the old boys greatly. They would nearly all be gone forever, politically, without this question to float on—for they have shown very little capacity to live on merit.

The arguments used by our cotem. against allowing the sandy soil upon which the town is built to become saturated with uric and other poisonous acids are unanswerable. It strongly recommends earth closets, as it says we cannot afford sewers. We second the recommendation, but differ on the sewer question. The *Gazette* office has a sewer to the river with a big fall. It could be run all over the north side from our level and have plenty of grade. A very few hundred dollars would go a long way towards draining Reno. Until we can get sewers, however, let us by all means use the next best thing. Even a liberal use of carbolic acid or copperas would be beneficial.

The Director of Mints has decided that coin punched or mutilated can be considered only as bullion thereafter, even if the holes are filled with the same quality of metal.

The *Chronicle* knows a good item when it sees it. It stole the *Gazette's* item about cotton in Nevada that cost a thousand dollars.

The Sacramento *Bea* is being boycotted in the mountains on account of the debris question.

## Telegraphic Briefs.

—Ex-Congressman Wm. B. McElay died yesterday in New York.

—Protestant churches at Washington yesterday adopted anti-polygamy resolutions.

—Reverend Samuel Johnston, co-laborer with Garrison and Phillips in anti-slavery times, is dead. He was 65 years of age.

—Five masked men entered a farmhouse five miles east of Harrisburg, Pa., and intimidated the aged couple into surrendering \$1,000 secreted in chests and trunks in an adjoining building.

—A fire in the Albion print works, Water street, Philadelphia, to-day, destroyed the entire stock, worth fifty thousand dollars, and the stock of several other firms.

—Delegates from all the counties in the Black Hills met at Deadwood yesterday and voted to ask Congress for authority to vote railway bonds amounting to one-tenth the assessed valuation, by which \$200,000 would be realized.

The California Delegation Doing Good Work.

New York, February 20.  
The *Mail and Express* Washington correspondent says: Senator Miller of California, will to-day or to-morrow, call up from the calendar the bill regulating the Chinese immigration treaty, and press it after it has been discussed a reasonable length of time. Several Senators desire to speak on it. Representatives Page and Pacheco intend to press it in the House also, in a few days. The Pacific Coast people are not as radical in the matter as they have been. They do not demand that "the Chinese must go," but they want white labor protected from mongolian by restrictive legislation. There is no passion exhibited in the matter this year at Washington, but on the contrary, the Pacific Coast people now talk plain common sense in their arguments.

## EASTERN.

Diplomatic Difficulty.

WASHINGTON, February 20.

The correspondence relative to Chili and Peru clearly shows that if our Government had insisted upon the recognition and maintenance of the Calderon Government it would have been necessary to resort to arms. Minister Christiany as reported in March last, Calderon made some rather humiliating appeals to conquering Chili for the head of a government who could claim support of the United States. Mr. Christiany, March 7, said: Calderon found great difficulty in getting proper ministers to hold offices under him, but when he finally thought he had got this arranged he, for the first time as it would seem, began to inquire how far his Chilean friends meant to allow his Government to govern. He requested that the Chilean army should be withdrawn from the City of Lima, that he should be allowed to occupy the Government palace and raise over it the Peruvian flag, and that he should be allowed to control the Custom House and collection of duties, etc., all of which was refused, whereupon, as I understand, his proposed ministers refused to act, and he himself was disposed to decline the task of forming a government.

March 31 Mr. Christiany reported that the new Peruvian Government, of which Mr. Garcia-Calderon is head, does not seem likely to be recognized by the people of Peru, and so far as manifestations of the popular will have come to my knowledge the mass of the people seem likely to continue its adherence to Dictator Pardo.

About the same time, Mr. Christiany informed the State Department that the influence of the United States on this coast upon any question connected with the present war or the settlement of peace can only be secured by active intervention in some form against the will of the Chilean Government. Whether our government is prepared to take this attitude it is for your department, and not for me, to decide. Mr. Christiany felt compelled to protest against the barbarian acts of Chili as a conqueror, in that Chili claimed the right to remove all the public libraries and paintings from captured Lima. For myself, I look upon this as a violation of the rules of civilized warfare, which calls for an earnest protest on behalf of the civilized nations, and I have been in favor of such protest being made by diplomatic corps here.

## A Horrible Murder.

St. Louis, February 20.

A terrible tragedy occurred Saturday near Centerville, Texas, in which two negroes named Hale were killed and their wives mortally wounded. It appears the negroes, who were riding along the road in a wagon, had some trouble with the child of a white man named Lyle. The child ran home and told its father about the affair, and the latter, taking a shotgun, concealed himself by the roadside, and when the negroes drove by fired from his ambush, almost blowing the heads off the men and fatally wounding the women. The murderer fled.

## Denied by Those Most Interested.

Pittsburg, February 20.

The special telegrams sent out from this city, and widely copied by newspapers throughout the country, alleging undue intimacy between the wife of Hon. A. W. Campbell and George K. Wheat, a prominent merchant of Wheeling, West Virginia, is charged by those gentlemen as being an atrocious falsehood, without any foundation whatever. The lady involved was absent visiting her sister in the West, and had been gone for over a week prior to the date of the alleged occurrence.

## Challenges the Clergy.

Chicago, February 19.

J. H. McVicker, the well-known theater manager, in an open letter to Rev. Herrick Johnson, which the *Tribune* will publish to-morrow, states that if Dr. Johnson will apply to his theater the recent general statement that no theater has stood during the past 25 years without producing fifth on its boards, he (McVicker) will convict Mr. Johnson of libel; or, failing in that, will bestow \$1,000 upon any charitable institution that Mr. Johnson may designate.

## Congressional.

WASHINGTON, February 20.

Senator McPherson is preparing a bill in regard to the navy which provides for the abolition of all navy yards except those at Brooklyn, Pensacola and Mare Island on the ground that when we have no navy others are not needed.

## The Result.

CHESTER, Pa., February 20.

Five more of the wounded by the explosion at the fire of the old Pooher mansion are in a precarious condition. The list of injured is increasing. The four victims were buried yesterday.

## Christians on the Sandwich Islands.

New York, February 20.

At the Cavalry Episcopal church, Rev. Dr. Alfred Willis, Bishop of Honolulu, Sandwich Islands, preached

yesterday both morning and afternoon. He said, "The Hawaiian islands serve as stepping stones between Eastern and Western civilization. They are becoming rapidly colonized by Mongolian immigrants, who occupy a large number of plantations which they have redeemed from ruin. The Chinese population is fifteen thousand. The Anglican Church at Hawaii is an offshoot of the English Communion, and was founded by Bamehameha. It was at first under the direction of Bishop Thomas N. Staley, under whose supervision the book of common prayer were translated into the Hawaiian language. The Roman Catholic Church was founded in 1839, and numbered among its members as many as the Congregationalists. The work of the church now extends over four of the islands. There are nine churches and rectors, five priests and four deacons. There two priests in Honolulu, one at Wailuku, on Maui, one on Hawaii, and one on Kauai. There are several schools established on each of the islands under the direction of the Holy Trinity, and houses are provided for the education of Hawaiian and half white girls. The Hawaiians are all Christians. They number 40,000, which with 20,000 foreigners, make a population of 60,000 persons. Willis gave promises of the rapid increase of the membership of the Episcopal church, and requested gifts for the foundation of a stone building in Honolulu, to serve as the Cathedral of Diocese.

## Voorheis Trying to Get in Good Company.

Chicago, February 20.

A Washington special says: Western press reporter this morning interviewed several leading Democrats in regard to the reported scheme to run Blaine and Voorheis as candidates in 1894. Voorheis characterized the story as too absurd to be noticed. Senator Morgan pronounced the whole thing a fiction, saying, "I don't think Blaine would ever trust his political fortunes to such Democrats as Voorheis, Jere Black and myself. I like Mr. Blaine very much, personally, but I believe the straight, unadulterated Democracy would rather lose with a simple pure Democratic candidate than win by coalition and mixture of principles." Among Democrats generally, the story is laughed at, but a few, however, are inclined to shake their heads and say things are drifting that way.

## The Ohio on a Spec.

Cincinnati, February 20.

A heavy rain has been falling all the morning. The river at 11 o'clock is 55 feet, and rising two inches an hour. All the cellars below Third street are flooded, practically suspending business in that part of the city, as a great force is kept busy removing goods. The Plum street passenger depot is inaccessible, and trains deliver passengers at Ward street. Maddux and Hobart's distillery and the Globe rolling mill have been compelled to close operations. Other distilleries in the same locality will be compelled to close to-day. If the rain should stop now it is estimated there will be five feet more of rise. What will come with more rain would make the highest water ever known.

## Shipwreck in Trouble.

New York, February 20.

The list of the names contained in the Peruvian correspondence was received in Washington with indifference. The *Tribune* correspondent shows that at no time has the State Department given Shipwreck the least encouragement. Blaine having once even threatened to begin criminal proceedings against him for attempting to bribe General Harburt. Inquiry in this city revealed the fact that in nearly every instance Shipwreck's use of the names of prominent men was without authority.

## Want Fast Mail.

WASHINGTON, February 20.

Copies of the correspondence in regard to weighing mails on the railroads between New York and Chicago will to day be placed upon the desks of members of the House in answer to a call for information. In one letter Postmaster-General James asked William H. Vanderbilt to transfer a postal car from an express to the fast train between Buffalo and Chicago, and accept \$50,000 to \$70,000 additional compensation without running any more cars.

## Motivations in Luck.

New York, February 20.

John H. McGinnis, a sweeper employed in the postoffice at two dollars a day, has received official information from Milton Springs, Colorado, that he has fallen heir to \$50,000, left him by John Williams, a successful mining speculator.

## Another Prize Fight.

Chicago, February 20.

Several hundred coal miners and some St. Louis sports witnessed a prize fight at Pittsburg, Ill., Saturday between Larry O'Brien and Edward Denton, O'Brien winning. Twelve rounds were fought in 85 minutes, both being badly battered.

## The Star Route Cases.

WASHINGTON, February 20.

Star Route sympathizers in Washington are trying to cover up their disappointment at Judge Snell's de-

cision in straw bond cases, by exulting over the failure of Star Route prosecutions in Judge Dundy's Court at Omaha. Colonel Bliss, when asked of these cases, said they were local prosecutions, and not under his control, and he knew but little of the details. The cases originated in the confession of the postmaster at Deadwood to the fact that he had been giving false certificates of the arrival and departure of mails in order to enable the mail contractors to draw their pay in full, although they had failed to fulfill their contracts. This information was obtained by Postoffice-Inspector Furry in an investigation set on foot by himself. Munro Saulsbury, one of the largest mail contractors on the lines at Deadwood, delayed an indictment of the guilty persons, but it was finally had on the trial. The Deadwood Postmaster refused to testify on the ground that it would criminate himself. Colonel Bliss infers that the failure of this witness, upon whom the prosecution seems to have depended, broke down the case.

## Little Severe on the Members.

Laramie City, Wyo., Feb. 20.

Last night Mrs. John A. Grover, alias Pussy Newport, a prominent member of the demi-monde here, committed suicide by shooting herself through the head. Pussy Newport will be remembered as the woman who, while living at Lincoln, Nebraska, started out to reform, but afterwards said it was useless so long as the Nebraska Legislature was in session.

## A Michigan Blase.

Bellefonte, Mich., February 20.

A fire originating in a harness shop, early yesterday morning, destroyed 16 stores and dwellings—half the business places in town. Loss over \$400,000; insurance \$40,000.

## The Last of Earth.

San Francisco, February 20.

Mrs. Newland was buried to-day from St. Mary's Cathedral, Archbishop Alemany officiating. The church was crowded.

## Too Old.

Halifax, February 20.

Jas. Johnson's House near here was burned to-day. His parents, helpless from old age, perished in the flames.

## Trains Wrecked.

Atlanta, February 20.

Two freight trains on the Atlanta & Charlotte air line were wrecked by a collision yesterday. Three men were injured.

## The Loss.

Haverhill, February 20.

The latest estimates of the losses by fire two and a quarter millions. Insurance two millions.

## Jewish Refugees.

Philadelphia, February 20.

Mayor King has received letters from Maryland and Texas, offering lands to Jewish refugees.

## More Victims.

Chester, Penn., February 20.

Two more victims of the explosion of the Jackson pyrotechnic works died last night.

## Carson Will Rejoice.

Washington, February 20.

Senator Rollins to-day reported favorably as to the amended bill for public buildings in Carson City, Nevada.

## FOREIGN.

Its Effect.

LONDON, February 20.

The *Times*, commenting on General Skoboleff's speech says: The Russian Government, by its laxness in discipline, becomes morally responsible for the state of things distinctly endangering the peace of Europe. General Skoboleff's position cannot fail to breed alarm and suspicion in the financial and political world. Europe has the right to ask that the czar's authority be used to prevent the recurrence of firebrand speeches from Russian Generals.

## PARIS, February 20.

General Skoboleff has informed an interviewer that he made his recent speech simply as a private individual, and although the report of his speech was exaggerated, he adhered to the spirit thereof. He altogether deprecated the importance attached to his utterances.

## LONDON, February 20.

The *Standard's* Berlin special says: The Emperor has expressed the deepest indignation and sorrow at General Skoboleff's remarks. He said if such wanton provocation continued he would be compelled to resort to energetic measures.

## Immigration of Jews.

St. Petersburg, February 20.

General Ignatieff, Minister of the Interior, has informed the Jewish Rabbi that his Government would neither encourage nor oppose the immigration of Jews.

JOTTINGS.

**Try Allen's 5-cent cigar.**  
Allen has a fine lot of cigars.  
Allen has a fine piano for sale very cheap.  
Baby carriages at Allen's at lowest prices.  
Order your picture-frames and cornices of E. A. Allen, 27 Commercial row.  
The funeral of the late Jacob Graff took place yesterday afternoon and was largely attended.  
Mrs. Prescott has a notice in the fifty-cent column asking all who owe her to call and settle.  
Copping inks of all kinds at Naaby's bazaar. Thermometer at 7, 9, 11, 1 and 3: 12, 22, 27, 33, 31.  
At Everett's, corner Second and Sierra street, you can find the choicest of everything in the family grocery line.  
Constable Avery has a yellow grayhound in the pound. He is a fine dog and George wants an owner.  
Mrs. Prescott is going below the first of March and has an interesting notice to her lady patrons in the GAZETTE's fifty-cent column.  
The annual agricultural meeting to-day was a failure. Out of 916 shares, only about 100 were represented. The meeting will be held next Saturday, at the Justice Court.  
"Why, Abrahams Brothers, of course. The White House has the latest of everything," said a young Reno blood when asked by a friend where he bought his new clothes.  
Mrs. Berry is slightly improved. The fever is broken, but she is so weak it is necessary to assist her to turn in bed. Unless some new complications arise, she will no doubt mend. The GAZETTE sincerely hopes so.  
A man in a neighboring town made his landlord mad the other day by asking him for a hammer and some nails. He then took off his boot, and, pulling the bootstraps that had been set before him for his breakfast from his pocket, began to tack it on for a half sole.  
A popular pastime these cold mornings is thawing out kitchen water pipes. Sometimes it is varied by working an hour or two to get the water to running when it is turned off. That is the way C. A. Bragg put in his Sabbath afternoon.  
Constable Avery and Dr. Fred. Hatcheson have appointed inspectors for the sheet and pillow slip ball to-morrow night. No respectable characters will be allowed admittance. Admission to the gallery 50 cents; children under 10 years old 25 cents.  
A freeman of the Old Colony Railroad, George S. Morey, Chasest, Mass., was cured of a most torturing case of rheumatism, from which he suffered more or less for fifteen years, by the use of St. Jacob's Oil. Two bottles restored him to perfect activity.  
**Picking on Small People.**  
There is a good natured but never-ending quarrel between the boys on the narrow gauge at Colfax and the big road. There is no end of fun made comparing sizes of engines and such things. The C. P. boys are spreading for true a story that Superintendent Klidder made a snow plow for his little engine the other day and when they heard it coming some of them started a snow ball in the soft snow and, rolling it over a few times, left it on the track. The little engine tackled it furiously, buzzing like a wasp at a picnic. It struck. The snow flew, the smoke rose, the wheels flew around, and when things got settled it was found that the snow ball had thrown both plow and locomotive from the track.  
**Twenty-two Years Ago.**  
W. B. Tiffany gave the GAZETTE a ticket used at an election held in 1890, when what is now Nevada, was Carson county, Utah Territory. It is printed on heavy manilla paper of a very dark brown. The names on the ticket will be familiar to many old-timers.  
**ANTI-MORMON TICKET.**  
For Assemblyman—J. K. Trumbo, of Genoa.  
For Sheriff—B. T. Brown, of Silver City.  
County Treasurer—B. L. King, of Carson City.  
County Surveyor—Jas. Sturtevant, of Washoe Valley.  
Schoolmen—A. Curry, of Carson City; Wm. McGraw, of Washoe Valley; J. J. Mathews, of Virginia City.

**TRAIN WRECKERS' TRIAL.**  
Newspaper Reporters Excluded and the Witnesses Admitted one at a Time.  
The trial of the men who ditched the overland at Cape Horn is up again at Auburn, and the greatest interest is being taken in it. Prosecuting Attorney Lardner is assisted by J. M. Fullweiler, with Jo Hamilton, formerly Attorney General, for the defense. The evidence against Stenege, who is now being tried, is all circumstantial, except that of Mason, who has turned State's evidence. The men on the train were put on the stand one after another, beginning with the head engineer and working back. After them came Mason, who swears that Stenege came to him some time before the attempt at robbery and told him that he and some others had a scheme to make some money, and asked him if he would stand in. He told him yes, and in a few days Stenege told him the plan was to rob the overland express car. They were living at Damascus, on the Iowa Hill divide then, and the proposition was for the party to take some tools from the Aurora claim and go down on the North Fork to Pickering's bar to an empty cabin, and do some work as a blind. Their first thought was to

**TAKE THE TRAIN**  
At Gold Run, stand up the watchman who changes the mail, cut off the express car and make the engineers run up a mile and stop. They thought better of it, however, and concluded to ditch the train below. They were notified by Rogers to be at Gold Run on the 31st of August, and they were on hand, armed with shot-guns, revolvers, giant powder and fuses. Rogers, Stenege, Shinn and Mason walked down to Cape Horn, and Frazier came down from Colfax with a pinchbar and wrench. Stenege was to stand at the first engine and Rogers at the second. They were to capture the engineers and march them back to the express car. Mason, Rogers and Shinn were to stand by the express car and keep people back. If the messenger fought hard they intended to shoot him or blow him up with giant powder. Rogers upset the whole business by not going near his engine. Mason and the others waited for them to come back, but they were so slow they got scared, and said: "If we are going to do anything, let us do it." The others thought it was too big a job, so they all started to run. Frazier went home to Colfax; Rogers to Gold Run; Shinn, Mason and Stenege to the cabin on the North Fork. They cut up the tools and threw them into the river. The next day Rogers came down and said the train arrived at Gold Run about 8 o'clock the next morning. He said that he got home without meeting anyone, and that no one had any suspicion at all. They then separated. He went home, and the others went to Damascus. The prosecution is said to have 60 witnesses, some of them new. One of them is a man named Pease, who, it is said, will swear that the parties made the proposition to him, but he declined to go into it. The case will be nearly a month on trial.

**A Slight Mistake.**  
"Auntie," said a little Reno four-year-old, "Auntie, I had a dream last night."  
"Did you, Johnnie; what did you dream?"  
"I dreamed I went away up to the sky, and I saw Scott up there too," replied little Johnnie.  
"Scott? who is Scott, Johnnie?"  
"Why, Auntie, don't you know Scott—Scott, the man who made you?"  
Auntie—"Don't you mean God, Johnnie?"  
Johnnie—"Oh, yes; God, that's the man."

**No Grasshoppers Wanted.**  
A young lady from Sierra Valley, visiting friends in Reno, was invited the other evening by a gentleman and his wife to the Palace restaurant for oysters. The gentleman, who the young lady new to be quite a joker, in his way, passed her a plate of shrimps. "No you don't," said the young lady, "you can't get me to eat those grasshoppers." The gentleman assured her they were not hoppers, but she would not be convinced, and went away believing her escort had been guilty of trying to make her eat grasshoppers.

**A Runaway.**  
Ross Jones' team became unmanageable while in the procession of Graff's funeral, and, turning into the western extension of Second street, came down and turned into West street at the top of their speed. Mr. Jones was in the buggy and piloted his runaway horses through town with much skill. The team ran as far as the Aylam building before Mr. Jones succeeded in checking them. No damage.

**Truckee Wedding.**  
E. J. Brickell, of the Truckee Lumber Company, Truckee, was married, last Thursday evening, to Mrs. E. J. Dyer. Mr. and Mrs. Brickell left the same evening for San Francisco, where they will remain a few days, after which they go to Spokane Falls, Washington Territory, for two months' visit.

**Persons.**  
W. B. Tiffany, Verdi, is in town to-day.  
J. B. Chins, of Emigrant Gap is making an exploring trip to Texas.

**OREGON LETTER.**  
What a Former Resident Says of Oregon.  
WENTON, Or., Feb. 6, 1893.  
The GAZETTE received the following letter from Johnnie Webber, formerly an employe in this office, now living in Oregon:  
Ed. GAZETTE: Being idle at present, I thought I would drop you a few lines to let you know what is going on in this far-off country. We have only heard from Reno a few times since we left last May. We all like this country very much. It is well adapted to stock-raising and farming, grain yielding abundantly. Sagebrushers would be surprised to see the long stretches of country for miles and miles, with bunch-grass about knee deep, and as thick as grass on a meadow. In fact, it is a regular prairie. The Blue mountains to the north, east and south of us, are covered with forests of pine, fir, tamarack, spruce, cotton-wood, etc. Wild strawberries as thick as they can grow, cover the surface of the ground on the mountains. Our creeks are full of mountain trout, and are lined on either side with a continuous belt of cotton-wood and box-elder, willow, birch, balsam, of Gilead, etc. The woods on the mountains abound in game, such as deer, elk, bear, prairie dog, etc. I don't know whether there are any quail or not. There are prairie chickens without number all over the country.  
Walla Walla, twenty miles north, seems to be the center of trade for these parts. Weston is a flourishing little town of about 500 inhabitants. The city is built in a canyon, or "holer," as it is called here, and contains two hotels, three restaurants, three grocery and dry-goods stores, two hardware stores, two blacksmith shops, one grist mill, one planing mill, two stables, four saloons, one cigar and notion store and two butcher shops. Besides these there are two law offices, one public school house, a City Hall, two stories high, and quite a number of nice residences.  
We are connected with the outside world by the U. I. & O. stage line, stages passing north and south every day.  
There is plenty of work here for everybody during the Summer, but not so much in the Winter. Just as soon as the frost is out of the ground plowing begins, then sowing, then harvesting and then hauling to market. A man can make money here splitting rails and cutting wood, which are as good as cash. People here look forward to the completion of the Union Pacific short line, when we will be connected with the East by rail. This country is flooded with old trade and Mexican dollars, which go for par.  
Yours, JOHN V. WEBBER.

**Winter Logging.**  
Up to a week ago the present season has been one of the best for logging that has been known in this section for years, says the Truckee Republican. Geo. Schaffer has over two million feet of logs at his mill, and Richardson Bros. have nearly as much more. The Truckee Lumber Company have also got in a much larger quantity than usual. Quite an army of men and teams have been at work on the Little Truckee for the past three months, and we understand that the quantity put in will far exceed that of any former season.

**Card of Thanks.**  
I hereby return the thanks of myself and the family of Jacob Graff, deceased, to the fraternity of Odd Fellows and sympathizing friends for their assistance and kind attention during our late affliction, and hope that God, in his all-wise providence, may spare them the pain of a similar affliction.  
Mrs. MADALENA GRAFF.

**Tankin, the Shooter.**  
Tankin, the man who killed McClellan at Truckee last Fall, and was convicted last week in the Superior Court of Nevada county of manslaughter, will be sentenced next Thursday.

**Notice to the Public.**  
The citizens of Reno are hereby notified that I will, with the assistance of my family, carry on the business in the bakery known as "Jake Graff's" bakery, as heretofore, and respectfully ask the citizens of Reno to continue to patronize the bakery as of old. I am also notified for the support of said family. Contrary reports notwithstanding, Eddie Graff will deliver bread to all customers with his well-known civility and dispatch.
